RUTIK BAJIRAO PATIL

+91 9130052134 — Pune, Maharashtra, India — rutikp2134@gmail.com
LinkedIn: linkedin.com/in/rutik-patil

PROFESSIONAL SUMMARY

Computer Engineering graduate with strong foundation in **Core Java, Spring Boot, and RESTful API development**.

Hands-on experience building scalable full-stack applications using **Java, ReactJS, and MySQL**.

Proficient in **Java 8 features (Lambdas, Streams)**, OOP, Collections, Exception Handling, and basic Multithreading.

Familiar with **Microservices architecture**, Git version control, and API testing using Postman.

Strong problem-solving and debugging skills with internship experience in real-world projects.

EDUCATION

B.E. in Computer Engineering — PVG's College of Engineering & Technology, Pune
Passout: 2025 CGPA: 7.2/10

HSC — P. B. Patil Highschool & Junior College
2021 Percentage: 77.20%

TECHNICAL SKILLS

Programming Languages: Java (8/11/17), Python, JavaScript, C++

Backend Technologies: J2EE, Spring Boot, Spring MVC, Hibernate, Servlets, JSP

Frontend Technologies: React.js, HTML, CSS, JavaScript, JSF

Microservices & APIs: RESTful APIs, Microservices Architecture

Cloud & DevOps: CI/CD Pipelines, Docker, Git, GitHub, Linux (Cloud fundamentals)

Databases: MySQL, MongoDB

Practices: Agile Scrum, Automated Testing, Performance Optimization

EXPERIENCE

Java Full Stack Developer Intern Aug 2025 – Present
Profound Edutech Pvt. Ltd., Pune

- Developed and deployed full-stack applications using **Java, Spring Boot, ReactJS, and MySQL**
- Designed and implemented **RESTful APIs** for CRUD operations and data processing
- Built responsive and user-friendly interfaces using **ReactJS, HTML, CSS, Bootstrap**
- Integrated frontend with backend services ensuring seamless data communication
- Implemented secure authentication using **JWT**
- Performed API testing using **Postman** and version control using Git/GitHub

Artificial Intelligence Intern Feb 2024 – Apr 2024

- Developed computer vision applications using **OpenCV and TensorFlow**
- Built face recognition and object detection systems
- Improved model accuracy through optimization and preprocessing techniques

PROJECTS

Smart Employee Management System

- Developed a full-stack application using **Java, Spring Boot, ReactJS, and MySQL**
- Implemented **CRUD operations** and REST APIs for employee data management
- Integrated secure authentication using **JWT**
- Designed relational database schema and optimized queries

AI Voice Chatbot

- Built chatbot with **REST API integration** and real-time communication
- Implemented voice-to-text and text-to-speech functionalities
- Containerized application using **Docker**

To-Do List Web Application

- Developed a dynamic CRUD-based application using JavaScript and REST APIs
- Improved UI/UX and task management efficiency

Face Verification System

- Developed face recognition system using **OpenCV and TensorFlow**
- Enhanced accuracy using preprocessing and feature optimization

CERTIFICATIONS

Master Diploma in Java Full Stack Development — Profound Edutech

Oracle Cloud Infrastructure 2025 — DevOps Professional

Oracle Cloud Infrastructure 2025 — Data Science Professional

Oracle AI Foundations Associate

Git & GitHub Masterclass
